Sharing Research Data via the National Open Access Infrastructure

Monday, 23 May 2022 13:00 (2 hours)

In the second part, participants will learn how to upload data sets into one of the repositories of the national open access infrastructure:
• Login with a digital identity or user account.
• Metadata inclusion.
• Installation of iRODS client for Linux and Windows.
• iRODS Basics.
• Transfer large files via iRODS.
• Possibility to submit requests for access to data in restricted access.
• Providing restricted access to data.
