Sharing Research Data via the National Open Access Infrastructure

Monday, 23 May 2022 13:00 (2 hours)

In the second part, participants will learn how to upload data sets into one of the repositories of the national open access infrastructure:

- Login with a digital identity or user account.
- Metadata inclusion.
- Installation of iRODS client for Linux and Windows.
- iRODS Basics.
- Transfer large files via iRODS.
- Possibility to submit requests for access to data in restricted access.
- Providing restricted access to data.
